

# Pest and Rodent Control Schedule and Plan at Yas Acres Community

Dear Yas Acres Owners and Residents,

Greetings from Provis.

As part of our efforts to control and eradicate pests in our managed communities, we would like to update you on the measures followed in the community's common areas. We have also included useful tips not only to help you prevent pest infestation in your home, but to also ensure the success of pest control measures and works.

Please **click here** to view the pest control tips.

## Periodic Pest Control Services By Pest Free for Pest Control LLC

Pest control works are carried out in your community and are executed by the facilities management service provider.

## Combined Flying Insects and Mosquitos - Fogging Treatments

Mosquitos fogging treatments are carried out in your community to eliminate Insects and Mosquitos.

## Rodents Preventative Measures

Periodic replacement of all Rodent bait stations are installed in your community to eliminate rodents.

Together, our community members and stakeholders can achieve our pest eradication goal. We will continue to link our pest control activities with yours and the master community. For further information, please do not hesitate to call or send a WhatsApp message to Provis' Customer Care Centre at 600-505056 or send an email to: YasAcresCM@provis.ae

Together for A Pest Free Community,  
**Provis Community Management**
